Total Estimated Project Cost:	\$4,776,501		Total Cost Programmed in TIP to date:	\$801,501 \$1,098,863	
Description:	Intersection improvement with new signals on US 150 at Everett Avenue, Stiller Road, and Buck Creek Road.				
Justification:	Intent of the project to improve corridor progression on US 150 by implementing intersection upgrades. This report will focus on the segment of US 150 in Floyd County, between Edwardsville-Galena Road and Old Vincennes Road in and around the Galena and the Floyds Knobs area. The original study area extended west to Snyder Chapel Road, west of Greenville in Harrison County, for modeling purposes. All relevant background data is included. The report describes the project at a preliminary level and will guide the ongoing phases of project development.

Project Name:	Good Samaritan Bicycle and Pedestrian Trail Connector	Funding Source:	Surface Transportation Block Group -MPO	Open to Public Date:	2025 2027
Total Estimated Project Cost:	\$1,940,000		Total Cost Programmed in TIP to date:	\$1,940,000	
Description:	Construct a .67 miles multi-use bicycle and pedestrian trail 10 feet wide along portions of Watterson Trail, Grand Avenue, Bluebird Lane and Shelby Street as well as traversing between the Jeffersontown Public Library and the Academy of Individual Excellence School and the Good Samaritan Residential Community in downtown Jeffersontown.				
Justification:	This project will greatly enhance both pedestrian and bicycle connectivity to the surrounding streets in downtown Jeffersontown as well provide enhanced access to schools, libraries, parks and places of employment. It would also provide a missing gap in the existing multi-use bicycle and pedestrian trail system already constructed that will connect a high commercial corridor to the Bluegrass Commerce Park Employment Center to the surrounding roadway network and the city's downtown.

Project Sponsor:	Louisville Metro	KIPDA ID:	2539	State ID:	5-3034.00
County:	Jefferson	Parent ID:	1857	Group ID:	N/A
Project Name:	McNeely Lake Park Segment - Louisville Loop Shared Use Path	Funding Source:	Transportation Alternatives - MPO (TA-MPO)	Open to Public Date:	2025 2028
Total Estimated Project Cost:	\$3,674,679		Total Cost Programmed in TIP to date:	\$3,338,679	
Description:	Construct approximately two miles of new 10-12 foot wide asphalt/concrete shared use path through McNeely Lake Park. The first phase of the new shared use path will connect the recently constructed Loop path at Cedar Creek Road on the southeast side of the park to the existing park path at the west side of the McNeely Lake dam on the north side of the park. This segment of the Louisville Loop in McNeely Lake Park will include a new bridge over the lake at the dam spillway area and a trail head near the east end of the new path. The second phase of the new shared use path will connect the dam spillway area with Copper Chapel Road along the lake. This segment will include a new bridge over the lake near McNeely Lake Park Road.				
Justification:	McNeely Lake Park is a major urban park located in the southern part of Louisville which is experiencing a rapid transition from primarily agricultural to low and medium density residential land uses. As Louisville continues to grow in this area, there is a need for better connectivity and accessibility from both existing and approved new neighborhoods to the recreational amenities in the 746-acre park which includes athletic fields, tennis and basketball courts, a playground, and extensive path and trail system used by pedestrians, cross-country teams and others. The 100-mile Louisville Loop is a shared use path planned to traverse McNeely Lake Park as it moves across the southern part of Louisville from the Jefferson Memorial Forest to the Parklands of Floyds Fork connecting neighborhoods, schools, work places and other community facilities.

Total Estimated Project Cost:	\$784,000		Total Cost Programmed in TIP to date:	\$784,000	
Description:	Install new ADA compliant 5' sidewalk along Stony Brook Drive from Stara Way to Kirby Lane. Project length is 0.284 miles.				
Justification:	Complete pedestrian connectivity. The project will provide a newly formed pedestrian connector from one major arterial (Bardstown Road) to another major arterial (Taylorsville Road). Louisville Metro has recently filled in some of the smaller gaps along Stony Brook Drive with new sidewalk connections throughout this major residential area.

Project Name:	Historic Memorial Multi-Use Trail	Funding Source:	Surface Transportation Block Grant - MPO (STBG-MPO)	Open to Public Date:	2024 2026
Total Estimated Project Cost:	\$4,763,002		Total Cost Programmed in TIP to date:	\$4,763,002	
Description:	Construct multi-use path and pedestrian walkway along segment C of the Historic Memorial Multi-Use Trail including a Rest Plaza at Landis Lane and US 31EX. In addition, improve safety along the segment by reducing drainage hazards and installing a roundabout at Landis Lane.				
Justification:	To improve bicycle and pedestrian transportation within Mount Washington including safety elements. These facilities will be accompanied by a new signal on the north end of the project at Landis Lane in order to safely get pedestrian traffic from the east sidewalk to the west multi-use path and the connecting rest plaza and other trails.

Project Name:	LaGrange Underpass West of LaGrange	Funding Source:	Surface Transportation Block Grant - MPO (STBG-MPO)	Open to Public Date:	2026
Total Estimated Project Cost:	\$24,903,750		Total Cost Programmed in TIP to date:	\$24,903,750	
Description:	Construction of an uninterrupted rail underpass west of LaGrange on Allen Lane. The project will widen Allen Lane between KY 146 and Commerce Parkway aligning across from the I-71 Overpass.				
Justification:	The project will allow traffic to be unimpeded by the very heavily used CSX rail line improving congestion. It will also provided enhanced safety as emergency vehicles will be able to bypass the rail line.

Project Name:	Mattingly/Old LaGrange Road Trail	Funding Source:	Surface Transportation Block Grant - MPO (STBG-MPO)	Open to Public Date:	2027 2029
Total Estimated Project Cost:	\$1,250,000		Total Cost Programmed in TIP to date:	\$1,250,000	
Description:	A new section of 10' wide shared use path was constructed with the Commerce Parkway Extension project which terminates on Mattingly Road. This project will continue the 10' shared use path along Mattingly Road and then south towards I-71 along Old LaGrange Road to the existing pedestrian bridge over I-71 at Exit 18. It will also extend north from the intersection with Mattingly Road along Old LaGrange Road to the intersection with KY 146.				
Justification:	This trail will provide the needed connection to the existing pedestrian bridge over I-71 and move forward Oldham County's overall greenways plan to connect from LaGrange to Jefferson County. Currently there are no facilities on Mattingly or Old LaGrange Road separating vehicular traffic from pedestrians and cyclists.

Project Name:	KY 22/Clore Lane Intersection Improvements	Funding Source:	Surface Transportation Block Grant - MPO (STBG-MPO)	Open to Public Date:	2027
Total Estimated Project Cost:	\$4,475,557		Total Cost Programmed in TIP to date:	\$4,475,557	
Description:	This project will align Wooldridge Avenue and Clore Lane with left-turn lanes and right-turn pockets on both streets as well as add dedicated left-turn lanes on KY 22. Trees and vegetation will be cleared for increased visibility.				
Justification:	The KY 22 Corridor Improvement Study completed by Oldham County, KYTC and KIPDA in 2022, looked at KY 22 from the Jefferson/Oldham County line near Haunz Lane to KY 329. This project was identified in the study as the highest priority spot improvement. This intersection had the highest number of total crashes, more severe crashes, and the highest crash factor (1.58) of all intersections studied. It was also the top safety concern identified during two rounds of public engagement.
